## ◦ Skills ◦

### HTML

Built responsive web pages using HTML5 — semantic tags, forms, media, and accessibility best practices. Created portfolio and landing-page projects.

HTML5, Semantic HTML, Responsive Design, Accessibility, Forms, Web Development, HTML

### CSS

Designed responsive and modern web layouts using CSS3. Worked with Flexbox, Grid, animations, transitions, custom styling, and media queries to build fully responsive websites.

CSS, CSS3, Flexbox, CSS Grid, Responsive Design, Media Queries, Animation, Transition, Styling, Frontend Development

### JavaScript

Built basic interactive web features using JavaScript. Worked with DOM manipulation, event handling, functions, arrays, and objects. Applied simple ES6 features in small projects.

JavaScript, ES6, DOM Manipulation, Event Handling, Functions, Arrays, Objects, Frontend Development

### Python

Currently learning Python through online courses and practice projects. Working on basic scripting, loops, functions, and simple data structures like lists and dictionaries.

Python, Scripting, Functions, Loops, Lists, Dictionaries, Data Structures, Programming

### Django

Built dynamic web applications using Django. Worked with models, templates, and views (MTV architecture). Implemented CRUD operations, form handling, and basic authentication.

## Profiles

📌 <https://github.com/rsridoy000>

## About Me

I am currently a 6th semester student in the Computer Department at Jashore Polytechnic Institute, serving as the 2nd Captain of my class. My long-term goal is to become a professional Web Applications Developer. I already have some experience with computers and I am currently working on frontend development. My next step is to focus on learning backend development to become a full-stack web developer.

## Experience

### College Projects

Learning  
Jashore, Bangladesh  
**Aug 2025 - present**

## Education

### Jashore Polytechnic Institute

Computer Technology  
CGPA (Up to 5th Semester): 3.65 (Approx.) Semester-wise: 1st: 3.80 2nd: 3.61 3rd: 3.49 4th: 3.73 5th: 3.62

Diploma in Engineering

**March 2023 – Present**

🔗 <https://polytechnic.jessore.gov.bd/>

## Projects

### FashionFetch

Developed an e-commerce website for selling T-shirts and shirts online. Implemented product listings, shopping cart, checkout process, and responsive UI for desktop and mobile. Integrated basic front-end interactivity and designed user-friendly layout to enhance the shopping experience.

**Aug 2025**

🔗 <https://fashionfetch.onrender.com/>

### Django Portfolio Web App

Developed and deployed a dynamic portfolio web application using Django. The project features a responsive design, interactive UI, and backend integration with database. Implemented Django templates, models, and views, and deployed on PythonAnywhere.

**March 2026**

Connected applications with databases like SQLite.
